Hello Professor Delp,

I wanted to get your permission before I went forward with including a project from EGR 102 in my own repository. I know that without permission it can be an academic integrity violation. Therefore, I'm asking if I can include my code for the EGR 102 Farmer project from Spring 2024 in my repository which will hold other projects for viewing purposes of future employers.

Have a great day,  
Jacob Dirks

Hi Jacob,

Yes, that is perfectly fine. I appreciate you asking and I wish you well on your job hunt!

Dr. Delp

Hello Dr. Delp,

Thank you so much and hopefully you're having fun with the new program at Tempe.

Jacob Dirks
